

## Purpose of Survey

### INTRODUCTION

Welcome to the **2023/2024 ONE DAY POINT PREVALENCE STUDY** of flu vaccine uptake in **RESIDENTS** based in **RESIDENTIAL CARE FACILITIES (LTCFs)** in Ireland

This survey is a point prevalence survey: this means that all the data should be collected in a single day in each unit (e.g., all data for Unit A should be collected in the same working day). If completion of the full survey over one day may not be practical for larger LTCFs, make a plan to divide the LTCF into separate wards/units and collect the data over two or three consecutive days. It is very important that the data on a particular ward/unit is collected on the same day.

Each facility selects the day(s) to undertake the survey. **The survey should be carried out in your LTCF once during the second week of December 2023, ideally between Monday, 11th and Friday, 15th of that month.** It would be very much appreciated that the data is submitted for **Friday, 12th January 2024**

The information collected in this survey will be analysed by HPSC and published in a summary report circa September 2024.

The survey should take about 2 minutes to complete, assuming you have the relevant data to hand.

For more information about this survey, please see the survey protocol [here](#) or email Piaras O'Lorcain at [piaras.olorcain@hpsc.ie](mailto:piaras.olorcain@hpsc.ie). If for any reason you are unable to complete this survey online, please request a pdf version of the survey, complete it, scan the document and kindly return it by email to [piaras.olorcain@hpsc.ie](mailto:piaras.olorcain@hpsc.ie). Many thanks in advance for completing this survey!

**Consent:**

By ticking the box below you are confirming that you consent for your personal data, or that of others you have gained appropriate consent from, to be used for the purposes described in the "Introduction" section of this form given above.

Yes

No

**Name and Address of Long Term/Residential Care Facility (LTCF)****County Location of LTCF****Eircode of LTCF Location**

Enter eircode for example, D01A4A3, not as D01 A4A3

Community Health Organisation

Type of LTCF (primary remit)

What is the maximum bed capacity of the facility? (This field may be used to identify categories for the annual HSE/NIO Flu awards)

How is the LTCF funded/staffed/managed?

- HSE funded/staffed/managed
- Section 38 funded
- Section 39 funded
- Privately funded/staffed/managed
- Other
- Unknown

Date of Data Collection (please select a date between 11/12/2023 and 15/12/2023 in the format of dd/mm/yyyy e.g. 14/12/2023)

### Vaccination Details

Number of **ELIGIBLE *Long-Term Care*** Residents:

Number of **VACCINATED *Long-Term Care*** Residents:

Number of **ELIGIBLE *Respite/Short-Term Care*** Residents:

Number of **VACCINATED *Respite/Short-Term Care*** Residents:

Respite Resident Vaccination Policy Is there a policy that all elective respite patients should be vaccinated before admission? Please choose one option below

### Source of Information

What sources of information do you use to collate the **number of ELIGIBLE LTCF-based residents** in your facility? Click all that apply

- Person In Charge
- HR office
- CHO HR office
- National HR office if HSE
- Other
- Unsure

What sources of information do you use to collate the **number of VACCINATED LTCF-based residents** in your facility? Click all that apply.

- Person In Charge
- COVAX/IIS system portal
- COVAX/IIS dashboard
- Local LTCF records
- Self-reporting by residents

Other

Unsure

### Data Provider Details

Data Provider's Name:

Data Provider's Position:

Data Provider's Email Address:

Data Provider's Contact Telephone Number:

Would you like to submit another survey response on behalf of another LTCF?

Yes

No
